## ORDER AMENDING PRIOR ORDER

(Issued April 25, 2002)

On November 9, 2001, the Commission issued an order announcing the establishment of State-Federal Regional Panels to address RTO issues, modifying the

application of Rule 2201<sup>1</sup> in the captioned dockets, and clarifying Order No. 607<sup>2</sup> (November 9 Order).<sup>3</sup> Since that time, the Commission has held eight State-Federal Regional Panels under the authority of the November 9 Order, and has scheduled seven more panels in the near future.<sup>4</sup> The Commission's experience to date is that its goal in making the panel discussions exempt communications for the purposes of Rule 2201 – improved dialog with the states on important matters of mutual concern – is largely being achieved, and the Commission is optimistic that future panels will continue to further that goal. The Commission has found, however, that limiting the coverage of the November 9 Order to the state regulatory commissions in the United States has inadvertently prevented comparable Canadian provincial and national agencies and Mexican state and Federal agencies from participating in the panel discussions.<sup>5</sup> The Commission believes that the panel discussions would be enhanced by these agencies' participation.

---

<sup>1</sup> 18 C.F.R. § 385.2201 (2001)(the Commission's *ex parte* rule).

<sup>2</sup> Regulations Governing Off-the-Record Communications, Order No. 607, FERC Stats. & Regs., Regulations Preambles ¶ 31,079 (1999); *order on reh'g*, Order No. 607-A, FERC Stats. & Regs., Regulations Preambles ¶ 31,112 (2000).

<sup>3</sup> *Order Announcing the Establishment of State-Federal Regional Panels to Address RTO Issues, Modifying the Application of Rule 2201 in the Captioned Dockets, and Clarifying Order No. 607*, 97 FERC ¶ 61,182 (2001), *order on reh'g*, 98 FERC ¶ 61,309 (2002).

<sup>4</sup> To date, the Commission has held the following panel discussions in person or by telephone: Midwest Regional Panel (November 27, 2001), Northeast Regional Panel (January 9, 2002), Southeast Regional Panel (February 15, 2002), Midwest Meeting on RTO Cost Benefit Analysis (March 13, 2002), Southeast Meeting on RTO Cost Benefit Analysis (March 13, 2002), Northeast Meeting on RTO Cost Benefit Analysis (March 15, 2002), Western Meeting on RTO Cost Benefit Analysis (March 15, 2002), and Carolina Regional Panel (April 22, 2002). The following panel discussions are scheduled for the near future: Western Regional Panel (April 30, 2002), New England Regional Panel (May 23, 2002), Southeastern Regional Roundtable (June 3, 2002), Western Regional Panel (June 12, 2002), New England Regional Panel (June 19, 2002), Midwest Regional Panel (June 25, 2002), and Mid-Atlantic Regional Panel (July 2, 2002).

<sup>5</sup> For example, the New York ISO, ISO New England, and the Ontario Independent Electricity Market Operator, which is under the direction of the Ontario Ministry of Energy, Science, and Technology, have been discussing the formation of a Northeast RTO. Also, BC Hydro is involved in the efforts to form RTO West, which has a Membership Class that includes provincial as well as state regulatory authorities.

Under these circumstances, the Commission amends the November 9 order to extend its decision to consider otherwise prohibited off-the-record communications as exempt off-the-record communications as follows. Communications with Canadian provincial and national agencies and Mexican state and Federal agencies with regulatory authority comparable to American state regulatory agencies with a stake in the outcome of the Commission's RTO proceedings will be considered exempt off-the-record communications, even if those other agencies are parties to specific RTO proceedings.

The Commission orders:

The November 9 order is amended as discussed in the body of this order.

By the Commission.

( S E A L )

Linwood A. Watson, Jr.,  
Deputy Secretary.
